IEEE FSU Particle Accelerator Tour

Join IEEE for a tour of Florida State University’s particle accelerator. They are home to the world’s highest energy particle accelerator known as the Large Hadron Collider (LHC). It’s purpose is to use high energy beams guided by an electromagnetic field to accelerate particles to practically light speed then collide them to observe reactions and new processes.

There are limited spots available. Please visit the FAMU-FSU IEEE Student Chapter Facebook Page to learn more and sign up.
