New Innovation Hub Class | Designing Your Life with Innovation, ENT 1611

A new class is being offered by FSU Innovation Hub this Fall for undergraduates. It’s a 1-credit class called Designing Your Life with Innovation (ENT 1611). The course content is based on the best-selling book by Stanford professors, “Designing Your Life – How to Build a Well-Lived, Joyful Life”. The class uses powerful Design Thinking tools to:
- help students get unstuck from their ruts,
- identify alternative life paths,
- use a supportive design team to generate ideas (work in teams of 3 to 4 people),
- network with professionals in their fields of interest,
- conduct interviews that inform their decisions
and identify hidden opportunities, and
- use proven storytelling techniques to brand
  and market themselves.
For freshmen, the class will be useful in helping them
design the best life they could have in college,
become immersed in the Nole experience, and
provide a preliminary plan for after graduation. This is
empowering for many students and helps reduce their
anxiety. For seniors, there’s no better time than now
to get creative in navigating the job market during a
pandemic.

Syllabus here.

Next Undergrad in the Lab: Cleaning Water with Beneficial Bacteria,
Aug. 18 @ 4:00 p.m.

Tuesday, August 18, @ 4:00 p.m.
- Undergrad in the Lab: “Cleaning Water with Beneficial Bacteria” with Dr. Youneng Tang

In this live Zoom meeting, get an inside look at the microbial research Dr. Youneng Tang’s
civil/environmental engineering team is working on to find a better way to produce clean
drinking water for the world’s needs. He will give a brief (30 min) talk about his research and
how undergards can get involved. Open to all engineering undergraduates and those
interested in attending FAMU-FSU Engineering. Registration required.

Events are free and open to all, but do require advance registration at the links below. Past
lectures are available on the FAMU-FSU Engineering YouTube channel.

Upcoming “Undergrad in the Lab” events:
- September 1, 2020 | 4:00 pm: Tarek Abichou, Ph.D., civil & environmental
ingineering REGISTER
- September 29, 2020 | 4:00 pm: Peter Cheetham, Ph.D., electrical & computer
engineering REGISTER
- October 27, 2020 | 4:00 pm: Bruce Locke, Ph.D., chemical & biomedical
National Defense Science and Engineering Graduate Fellowship Program

The NDSEG Program are accepting applications. This is an opportunity for undergrads in their Senior Year or with at least 4 years left in their PhD. Applicants must be U.S. citizens or U.S. nationals. Dual citizens may apply. Eligible applicants will have completed their undergraduate studies prior to commencement of the Fellowship in September 2021, and must have at least 3 years remaining in their Ph.D. program.

COVID-19 Daily Self Assessment Now Available on FAMU Mobile App
All members of the University community must commit to doing their part to "Protect the FAMUly," by observing protective measures, including self-screening. Members of the University community are expected to use the self-screening assessment in the FAMU Mobile App once each day, prior to going to campus or class.

If you have not already, download the FAMU Mobile App (available in App Store or Google Play). Click the hamburger menu. Then click on self-assessment. You will have to log in with your iRattler credentials. Take the assessment and your answers will determine if you are able to proceed to class or campus.

Please direct related questions to Tanya Tatum, Director of Student Health Services, at tanya.tatum@famu.edu.

If you are unable to download the app, continue to use the attached self-checker and submit to studenthealthcenter@famu.edu.

Remember that we have a personal, as well as shared responsibility to mitigate the spread of COVID-19. Please take the self-assessment daily in order to reduce the chances of community transmission of COVID-19.

The Stay Healthy FSU: COVID-19 Training for Faculty and Staff serves as a resource that employees can reference for information on COVID-19 facts, the University response, policies and protocols, and additional helpful information. Due to the dynamic nature of the pandemic, this training will be updated as new data is published and as policies and procedures are amended. Faculty and staff are strongly encouraged to take this training regardless of whether they remain working remotely or return to campus.

The University has also implemented a Daily Wellness Check to encourage safety and self-
awareness by daily screening for COVID-19 symptoms. All employees are strongly encouraged to complete the FSU Daily Wellness Check App each day prior to reporting to work on campus. The Daily Wellness Check App is available through myFSU Mobile and myFSU portal.

Questions?
For questions about the training, contact training@fsu.edu. For general HR questions related to COVID-19, contact HR-COVID19@fsu.edu. For questions about the Daily Wellness Check, contact Information Technology Services.
