¹ Students taking MAC 1105, MAC 1114, and/or MAC 1140 as prerequisites to MAC 2311 should take a math course every term (including summers) until completing the math sequence.

² History, Social Science, and Humanities electives are to be selected to satisfy the General Education requirements. See the Checklist (reverse side) for details. Two (2) courses must include a writing "W" designation.

³ Most courses shown in the Freshman and Sophomore years of this Guide are also taught during the Summer terms, during which students are encouraged to make up missed classes. Nine (9) hours of summer credit must be taken at one of the twelve state universities in Florida sometime during the college career.

⁴ See approved Biomedical Engineering electives on reverse side.
