Integrative Space Additive Manufacturing: Opportunities for Workforce-development in NASA Related Materials Research and Education

Monday, November 30, 2020
1:00 PM - 4:00 PM

NASA Speakers
Dr. Tracie Prater - Acting Deputy Project Manager, In-Space Manufacturing (ISM), NASA
Mr. John Weis - Education Program Specialist, NASA

You will learn about...
• Registration Opens Sunday, November 1st
• Fellowship opportunities at NASA for students
• Internships/Job opportunities at NASA
• In-Space manufacturing research at NASA and student related opportunities
• Research Programs in additive manufacturing at FAMU-FSU college of engineering and other HBCU’s
• Summer research opportunities at FAMU-FSU in collaboration with NASA and DOW chemical company
• Applications to graduate school
